Executive Summary

I have over 4 years of experience building iOS applications at a software house company, working on apps in the automotive, education, and commerce. I take ownership of the products I work on and pay close attention to detail.

Relevant Experience

Planetmoto.com / platform and services to buy and sell used motorcycles   Remote, Indonesia

Full-Stack Developer   Jan 2024 - Dec 2024

- Built and maintained a Content Management System (CMS) using PHP and Laravel Framework to digitize and streamline paper-based workflows.
- Redesigned and implemented the website's homepage to attract users and showcase the motorcycle listings with 300+ visitors monthly.
- Developed API endpoints to connect the website, CMS, and Android apps within average 100 request a day.

iOS Developer   Jan 2023 - Dec 2023

- Designed, developed, and launched a platform for buying and selling used motorcycles, building the application from the ground up using MVVM architecture and the Combine framework, with support from iOS 13 and newer.
- Increasing crash-free users reported by Crashlytics from 92% to 98% by implementing Unit Test.

Tectagon IT Consultant / software house specializing in website and mobile apps   Remote, Indonesia

iOS Developer Lead Trainee   Jul 2021 - Dec 2022

- Managed a team of two to create a children's educational app centered on video creation, custom animation and interaction using Core Animation Framework.
- Conducted code reviews to maintain quality and resolved production issues by diagnosing and fixing bugs.
- Guided team members in their technical and professional growth while encouraging collaboration.

iOS Developer   Apr 2020 - Jun 2021

- Solely developed a finance education app, integrating Agora API and Qiscus API to enhance user engagement through video streaming, built custom live chat views, and interactive messaging.
- Built an online car repair shop using programmatic UIKit adhering to the MVC architecture, and integrating REST APIs and third-party libraries like Firebase managed via Carthage. With 100+ active users monthly.

Apple Developer Academy Indonesia   Onsite, Indonesia

Student Internship   Apr 2019 - Jan 2020

- Co-founded Hearo App, an award-winning application leveraging sign language recognition to bridge communication between hearing-impaired and others. Featured as one of the top projects in the program and highlighted in Apple Newsroom.

Education

Universitas Indonesia (UI)   Aug 2018 - Mar 2021

Bachelor Degree of Computer Science, Minor in Information System. GPA: 3.79

Universitas Gadjah Mada (UGM)   Aug 2015 - May 2018

Diploma Degree of Electronics Engineering. GPA: 3.64

Projects

georgiusyoga.com

- Personal website built with Next.JS, Tailwind CSS, and Shadcn/ui components for a minimalist and adaptive design. Features personal information, projects, blogs, contact details and received 50+ visitors monthly.
